## Goals of the Collaborative Research Action

- **CRA objective:** to contribute to the overall challenge of developing climate services with a focus on inter-regional linkages role in climate variability and predictability.
- **Belmont Forum Challenge:** To support international transdisciplinary research providing knowledge for understanding, mitigating and adapting to global environmental change.
- **JPI-Climate ambition:** to significantly contribute to underpinning the European efforts in tackling the societal challenge of climate change.

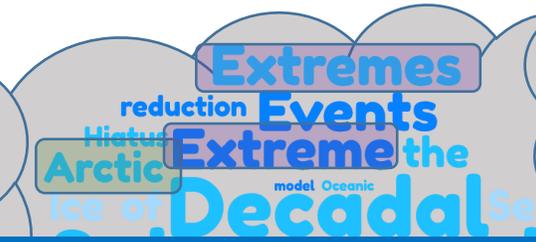

# Goals of the workshop

 **To gather outcomes, outputs, lessons learned on different aspects: transdisciplinarity & networking, research achievements, added value, etc.**

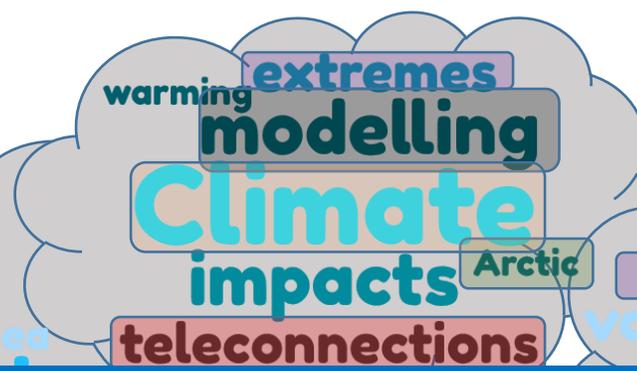

## CLIMAX

## INTERDEC

## HIWAVES3

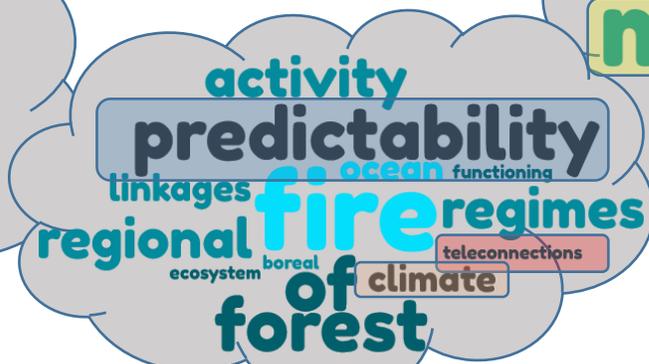

## PACMEDY

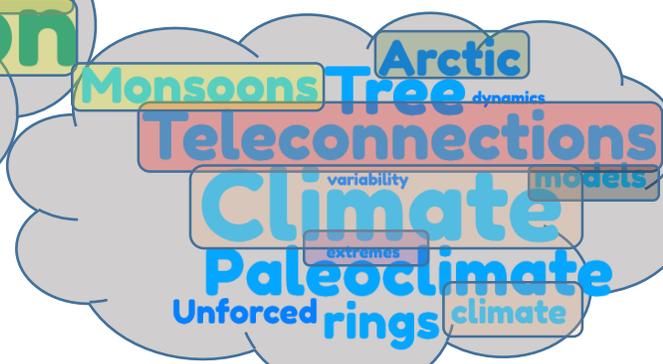

What could be the composition of these clouds today and tomorrow?

# Goals of the workshop

- ➔ **To gather outcomes, outputs, lessons learned on different aspects: transdisciplinarity & networking, research achievements, added value, etc.**
- ➔ **To identify knowledge gaps arising from projects' outcomes and frame possible future research directions.**

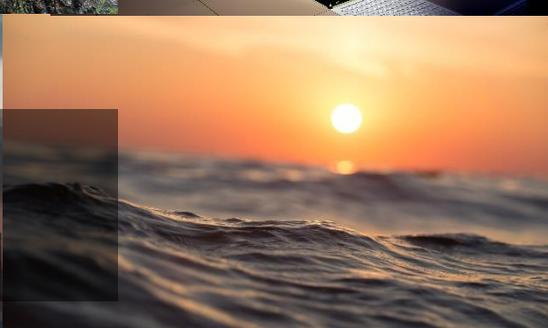

# Envisaged workshop outputs

- Building a transdisciplinary community among projects
- Brochure on outcomes and lessons learned
- Prospective paper on future research directions for this field of research
