

Belmont Forum Climate, Environment, and Health 2

Annex for U.S. Department of State (DOS)

Duration of time:	Open-ended
Country/(ies) supported	Global – with certain countries (i.e., those where the United States has limited or restricted foreign relations)
Description/qualifications of eligible participants	NA
Stipulations for the maximum number of researchers in the consortium	NA
Type of contribution + amount of contribution (K€)	In-Kind
Maximum amount that can be requested per project or by researcher (K€)	NA – contribution is in the form of outreach, facilitation, capacity building, etc.
Restrictions for use of funds	DOS does not generally provide direct support to research, but rather brokers connections, raises awareness, and builds capacity to support the emergence of trans-disciplinary, trans-national teams
Specific themes within the call	All
Where to submit proposal	Email to primary POCs, Joshua Glasser and Chloe Morton
[Additional information]	To support U.S. federal agencies involved in this Collaborative Research Action on Climate-Environment-Health 2023 (more at: Belmont Forum 2023 CRAs), DOS intends to: <ol style="list-style-type: none"> 1. Conduct outreach and coordination with other donor countries 2. Integrate the CRA into relevant regional dialogues 3. Support activities geared at bolstering research networks, capacity, and engagement, particularly with historically under-represented regions 4. Increase awareness of the activity in the foreign policy community
GPC point of contact	Joshua Glasser, glasserjl@state.gov and Chloe Morton, mortoncm@state.gov
