

Belmont Forum Climate, Environment, and Health 2

Annex for [UK Research and Innovation (UKRI)]

Duration of time:	3-4 years
Country/(ies) supported	United Kingdom
Description/qualifications of eligible participants	UKRI will assist prospective CEH2 researchers with communication and networking activities.
Stipulations for the maximum number of researchers in the consortium	NA
Type of contribution + amount of contribution (K€)	<p>In-kind</p> <p>(UKRI are not contributing funds at this point to researchers, so UK applicants would need to provide funding for themselves. There might be an opportunity for UKRI to contribute funds at a later date subject to internal processes).</p> <p>Ahead of the pre-proposal deadline, UKRI and NSF will run a joint virtual workshop bringing together existing CEH1 and perspective CEH2 researchers to 1) create possible research connections and collaborations between environmental and health disciplines and 2) to share lessons learned from CEH1 to help to inform the successful delivery of CEH2 projects.</p> <p>This workshop will be separate from the Sustainability Research + Innovation 2023 congress in June 2023.</p> <p>Further details will be released soon but the current date for the virtual workshop is Wednesday 3rd May.</p> <p>UKRI have and will continue to assist NSF in running the CEH2 call in an advisory capacity, particularly sharing knowledge on best practice from managing CEH1.</p>
Maximum amount that can be requested per project or by researcher (K€)	NA
