

Belmont Forum/ TPO – FORESTS 2024

Belmont Forum FORESTS 2024

Annex for National Research and Innovation Agency

Duration of time:	The project duration is up to 36 Months (3 years)	
Country/(ies) or region supported	Indonesia	
Description/qualifications of eligible participants	 Eligible entities: An Indonesian research entity such as: 1. National Research and Innovation Agency (BRIN); 2. Higher Education Institutions;/Universities (including private universities); and 3. Other research institutions legally registered in Indonesia, excluding BRIN, must register with the Sistem Informasi Registrasi Lembaga Riset (SEBARIS) and comply with its regulations to fulfill all required administrative and legal obligations. 	
	 Eligibility Criteria for Principal Investigator and members: Indonesian researcher with the following criteria: 4. The Principal Investigator (PI) must be an Indonesian citizen. 5. The PI is required to possess a doctoral degree. 6. Team members are not mandated to possess doctoral degrees. 7. Preference will be given to PIs with prior experience in international collaboration (joint research, joint publication). 8. A team member may engage in up to two proposals: either as a Principal Investigator in one and as a member in another, or solely as a member in both. 9. Both PI and team members possess pertinent experience and expertise for the proposed research, proven by a track record (portfolio) of research activities. 	
Stipulations for the maximum number of researchers in the consortium	 Indonesia cannot support projects if a Principal Investigator (PI) leads more than one project. However, if the PI leads one project, they can participate as a team member in another (up to 2 projects can be funded). There is no limit on the number of researchers in a project, but it should align with the funding allocated 	

Type of contribution + amount of contribution (R\$)	In cash BRIN shall provide a maximum funding of IDR 15 billion per year for all topics, covering research activities, researcher mobility, and infrastructure sharing.		
Maximum amount that can be requested per project or by researcher (K€)	The maximum budget proposed is IDR 1 billion per project per year, including research activity, researcher mobility and infrastructure sharing. BRIN will consider supporting up to five applications per topic.		
Restrictions for use of funds	 All activities classified as basic research and applied research are eligible for funding. Funding can cover various areas: Equipment: Please note that Indonesian grants do not cover equipment purchases. Consumables: This includes acquiring chemicals or materials essential for research or production. Personnel Costs: Funding is available only to compensate field workers for their contributions (funding cannot cover personnel expenses for administrative staff). Travel and Subsistence: In principle, travel expenses are applicable for domestic travel directly related to research activities, as well as facilitating the mobility of Indonesian researchers through BRIN's researcher mobility scheme. The Researchers. Mobility Scheme is exclusively for BRIN researchers. However, Indonesian researcher mobility funding, provided they collaborate with a BRIN research group. Detailed information about the researcher mobility scheme, including its provisions and access to the BRIN research group database, can be found at https://manajementalenta.brin.go.id/. 		
Specific themes within the call	 Area I: Reduce deforestation, and promote sustainable development and locally-led economies Area II: Ecosystem Function, Connectivity, and Climate Change Science Area III: Environmental Justice and Governance Or All the themes covered in the call 		
Where to submit proposal	 Indonesian researchers who become PI are required to login to <u>www.bfgo.org</u> before November 2024. 		

	 Applicants, represented by Lead PI from Indonesian or country partners, are required to submit documents to the BfGo system at <u>www.bfgo.org.</u> Applicants from Indonesia are also required to submit documents to BRIN, including signed approvals by the institution's leader, a complete proposal, and a budget plan according to BRIN's template—through BRIN's funding system platform at <u>https://pendanaan-risnov.brin.go.id/</u>. These documents must be submitted by the same deadline as the proposal submission via BfGo.
[Additional information]	 Indonesian researchers and institutions are encouraged to submit proposals aligning with one or more of these themes and demonstrating a transdisciplinary approach. The proposals should address the challenges outlined by the Belmont Forum and contribute to advancing knowledge and solutions in forest-related research. Researchers and/or institutions involved shall implement an arrangement regarding intellectual property, access to and utilization of genetic resources traditional knowledge and cultural expressions, material transfer and data management in accordance with the prevailing National laws in the Republic of Indonesia. a. For intellectual property (IP), the arrangement shall include: Any intellectual property brought by any party shall remain the property shall assure that the IP has not resulted from the infringement of any third party's legitimate rights. Any IP arising out of the implementation of the MOU, including know-how, methods, and technical information, shall be jointly owned by the parties, and the parties shall be allowed to use such IP for non-commercial purposes free of royalty. b. For genetic resources traditional knowledge and cultural expressions, the arrangement shall include: The parties involved shall recognize the value of genetic resources traditional knowledge and cultural expressions (GRTK&CE) and recognize the rights of
